filled

The Namal Institute is seeking outstanding individuals who have demonstrated a promise of achieving true distinction in research and the ability to be an excellent teacher for faculty positions (Professor, Associate Professor and Assistant Professor) in the field of Management Sciences, Computer Science, Electrical Engineering, Philosophy, History and Literature.

Selection Criteria

Applicants at the Assistant Professor level must hold a PhD, demonstrate their potential to produce international level research, have a commitment to excellence in teaching, good interpersonal skills and networking ability. Applicants for higher levels must have a proven track record of publication in high-impact international journals and demonstrated capacity to pursue research funding and develop and lead academic programs. Successful applicants should be able to design and teach courses at the undergraduate level. Namal Institute is an equal opportunity employer.

How to Apply

If you have the qualifications and credentials to deliver excellence in teaching and research, please apply, clearly identifying in a cover letter the appointment level in discipline area of interest, in a short statement detailing why you are interested in job at Namal Institute. You will also need to provide a detailed CV, including a full list of publications, teaching and professional experience, academic qualifications, and a list of three references. Applications should be sent by post or email at the below given address:
